

For this session you will need to open an A4 canvas within Procreate.

If you have problems downloading the colour palette made available to you, then we will use this image to grab the colours at the start of the lesson, so keep this image saved and available in your photo gallery.

You might want to familiarise yourself with the following brushes a little before the tutorial:

Soft Brush - within the Airbrushing brushes

Medium brush - also within Airbrushing brushes

Hartz - within the Artistic brushes section
