Optional Procreate Extra Brushes

If you wanted to super charge your Procreate experience I recommend the extra brush packs mentioned on this url:

<https://www.paintboxtv.com/ipad-art-tools>

They include:

- Matty B's BIG WET SET: 174 all-new watercolor, gouache, and ink brushes for

Procreate

Amongst my favorites from this bumper pack are:

MB_WC_LittleFlecks_looseSquareNib

MB_WC_SplotchyPaper_LooseNib

MB_WC_BasePaper_SoftBarNib

These brushes are very pressure-sensitive and allow you to make incredibly expressive ink/watercolor types of marks.

- Matty B's OIL MASTERSET FOR PROCREATE: over 300 oil brushes and backgrounds for Procreate ~ Amongst my favorites from this immense pack are:

MB.Oil.C_BaseCanvas A

MB.Oil.C2_RoundBalls D

MB.Oil.B_MetalPlate F

Applying these brushes lightly gives you a cool scumble oil effect as if you're painting on a rough textured surface.

- RAZUM OILS brush pack v2.2

One of my favorite brushes from this set is:

Razum_inc oil canvas text

Great for oily canvas-textured backgrounds!

- Abbie's Pan-Dem-Ink for Procreate 5. Use the coupon code PAN-DEM-INK to get 100% off that set at checkout.

Two of my favorite brushes from this set are:

AN Angry Inkling

Great for expressive gestures with a Zen Brush feel; and

AN Sneezed

Wild ink splatters that can create amazing distressed backdrops to draw over (think Ralph Steadman and Gerald Scarfe)!

Another two brush packs from Abbie that I love are:

(1) Abbie's Oil on Canvas for Procreate 5 ~ AU\$25

I used these brushes for the painting of Inky at the top of this page, and

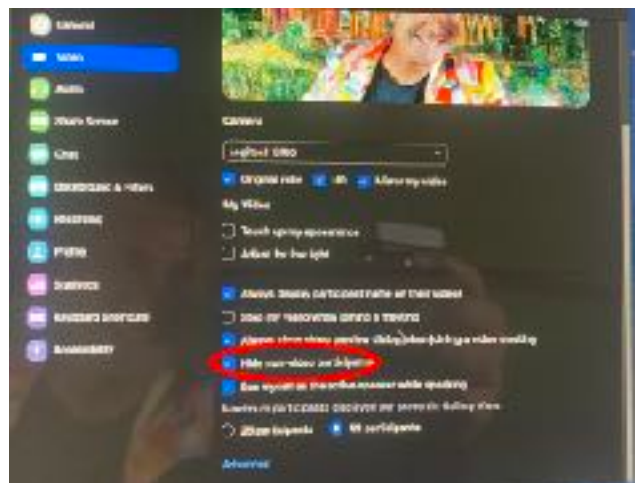

(2) Abbie's Ultimate Ink Bumper Pack for Procreate 5 ~ AU\$50

Includes one of my all-time favorite splattery brushes, the Spilling Ink Drops distant.

- Max's Watercolor MaxPack for Procreate 5

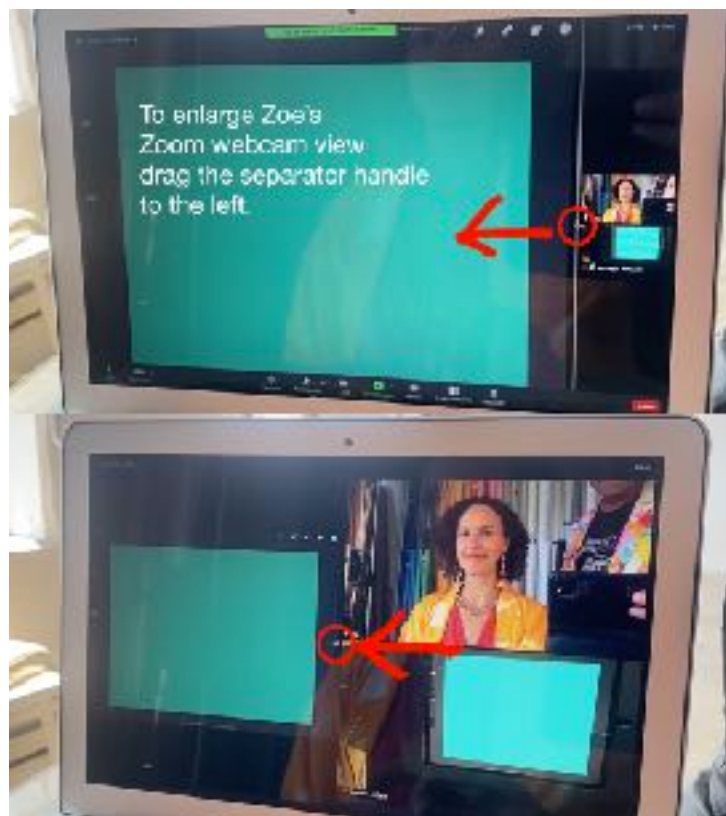

Zoom Tips

Go to your Video settings in Zoom (accessed through upward chevron to the right of the video symbol in the Zoom control panel). Select "Hide non-video participants".

When I am demonstrating I will ask everyone to mute their audio and video. That way we'll all be able to see our model much easier!

When I am screen sharing my iPad screen while also spotlighting our portrait model Zoe and the Artcam showing my hand on my iPad, here is a tip on how to enlarge your view of Zoe's webcam so you can draw her easily:
